INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Kern Community College District Bakersfield, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Kern Community College District (the District), as of and for the year ended June 30, 2021; and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT

(Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the District as of June 30, 2021; and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 8 and the required supplementary information on pages 53 to 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information on pages 62 to 82, including the schedule of expenditures of federal awards, as required by the Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information on pages 64 to 82 and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

INDEPENDENT AUDITORS' REPORT

Horton McMuly & Gaeteurn, UP

(Continued)

The organization structure has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OVERVIEW

Management's discussion and analysis (MD&A) provides a broad overview of the State of California's budget, the resources provided for the California Community College System, Kern Community College District's financial condition as of June 30, 2021, and significant changes from the previous year. Management has prepared the financial statements and related note disclosures along with this MD&A. The MD&A should be read in conjunction with the audited financial statements and related notes of the Kern Community College District, which directly follow this MD&A.

As discussed in note 1 to the basic financial statements, the District implemented the provisions of Governmental Accounting Standards Board (GASB) GASB Statement No. 84, Fiduciary Activities, as amended by GASB Statement No. 92, Omnibus 2020, for the fiscal year ended June 30, 2021. The summarized comparative information presented in this management's discussion and analysis for the year ended June 30, 2020, has not been restated to reflect student activity expense accounting as required by the GASB Statement No. 84, as amended by GASB Statement No. 92. Information was not available for such restatement. Therefore, certain accounts fluctuate significantly between fiscal years 2019-20 and 2020-21 due to information for the two years not being comparable.

DISTRICT BACKGROUND

The California Community College system is comprised of 116 colleges and is the largest system of higher education in the nation. The California Community Colleges are uniquely positioned to help residents of all backgrounds improve their social and economic mobility and build a better future for themselves and their families. The Kern Community College District (the "District") serves communities over 24,800 square miles in parts of Kern, Tulare, Inyo, Mono, and San Bernardino counties through the programs of Bakersfield College, Cerro Coso Community College and Porterville College. The District is geographically one of the largest community college districts in the United States, serving more than 30,000 students. The mission of the District is to provide outstanding educational programs and services that are responsive to our diverse students and communities.

FINANCIAL HIGHLIGHTS

The State of California's budget in fiscal year 2020-21 continued to provide increased resources for the state's community college system. The District also experienced continued growth in its funding resources; however, the pandemic created significant uncertainty with the state and District budgets. The District believes it needs to continue to position itself for a long-term financial downturn. The District continues to evaluate and identify opportunities for expenditure controls, organizational enhancements, reserve management and conservative budget planning and student enrollment management practices.

Fiscal year 2020-21 is the third year of Student-Centered Funding Formula (SCFF) that changed the state funding from being based wholly on enrollment, to incorporate student success and equity funding. As SCFF continues to evolve, the District continues to take a conservative approach to the changes occurring at the state. The objective of the new funding formula is to mitigate the challenges that the system has long struggled to address institutionally.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

In the November 2016 election, Bond Measure J in the amount of \$502 million passed. In June 2017, the District issued the first \$40 million of Measure J bonds and in September 2018, the District issued an additional \$71 million. In October 2020, the District issued \$64 million of Measure J Bonds and \$53 million of Measure J Bond Anticipation Notes (BAN). The BANs were issued as short-term approach to respond to the downturn in oil producing property values.

The MD&A financial statement presentation consists of the comparative statements of net position, statements of revenues, expenses, and changes in net position, statements of cash flows, and accompanying analysis for the June 30, 2021 and 2020 fiscal years. These statements provide information on the financial position of the District and the financial activity and results of its operations during the years presented.

STATEMENT OF NET POSITION

The statement of net position presents assets, liabilities, and net position of the District as of the end of the fiscal year and is prepared using the full accrual basis of accounting, which is similar to the accounting basis used by most private-sector organizations. The statement of net position is a point of time financial statement for the purpose of presenting the readers a fiscal snapshot of the District.

The District's total assets and deferred outflows increased by \$130.7 million. This change is largely due to an increase of \$56.2 million in non-depreciable construction-in-progress projects, an increase in accounts receivable of \$26.7 million and a decrease in deferred outflows of \$6.7 million.

The District's total liabilities and deferred inflows increased \$75.1million. This increase is primarily due to a net decrease in pension and OPEB benefit liabilities of \$28.3 offset by an increase in long-term debt of \$86.9 million, which was the result of the District issuing Bond Anticipation Notes (BANs).

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

Overall the District's net position increased by \$55.6 million, increasing from \$64.4 million to \$120 million. This increase was primarily due to the increases and decreases in revenues and expenditures as described below.

Overall, the District's revenues exceeded expenditures resulting in an increase in net position of \$55.6 million. This is an increase of \$33 million compared to fiscal year 2020.

Operating revenues increased \$11 million due to an increase in federal grants related to the COVID-19 Higher Education Emergency Relief Fund (HEERF). Operating expenditures decreased \$33.9 million from the prior year. This change was primarily due to a decrease in the OPEB valuation of \$30 million and other cost savings due to COVID-19 hybrid operations. Nonoperating revenues and expenses decreased \$13.1 million as result of the prior year Student Center Funding Formula (SCFF) apportionment deferral adjustment of \$13 million.

Years Ended June 30	2021	2020	Change	% Change

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity Kern Community College District (the District) is a community college governed by an elected seven-member Board of Trustees. The District provides educational services in the counties of Kern, Tulare, San Bernardino, Inyo, and Mono in the state of California. The District consists of three community colleges located in Bakersfield, Porterville, and Ridgecrest, California, and satellite campuses in outlying areas.

The District identified the Kern Community College District Public Facilities Corporation (the Corporation) and the Kern Community College Public Retirement System as its component units.

In order to make this determination, the District considered the following potential component units: the Corporation, the Kern Community College Public Retirement System, Bakersfield College Foundation, Cerro Coso Community College Foundation, and Porterville College Foundation (collectively, the Foundations). The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in Government Auditing Standards Board (GASB) Statement No. 14 as amended by GASB Statement No. 39. The three criteria for requiring a legally separate, tax-exempt organization to be discretely presented as a component unit are the "direct benefit" criterion, the "entitlement/ability to access" criterion, and the "significance" criterion.

The Corporation was established as a legally separate, not-for-profit corporation to provide financial assistance to the District for acquisition and construction of major capital facilities, which, upon completion, will be leased to the District under a lease-purchase agreement. At the end of the lease term, title to all Corporation property will pass to the District for no additional consideration. Therefore, the District has classified the Corporation as a component unit that will be presented in the District's annual financial statements using the blending method. Additionally, the Kern Community College Public Retirement System (OPEB Trust) was established to administer payments of certain health care benefits and early retirement incentive benefits to retired employees of the District. Effective with fiscal year 2021, the OPEB Trust will be discretely presented as a fiduciary component unit by applying the criteria set forth in GASB Statement No. 84, as amended by GASB Statement No. 92. Additional information is provided in the next section of this note 1 to these financial statements.

All of the foundations are legally separate, not-for-profit corporations established to support the District and its students. The Foundations contribute to various scholarship funds for the benefit of District students as well as making direct contributions to the District. However, the Foundations do not meet the "entitlement/ability to access" criterion. Additionally, due to the size of the District, none of these Foundations, individually, meet the significance criteria; therefore, the District has determined that none of these foundations meet the requirement to be included in the reporting entity as a discretely presented component unit.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Implementation of New Accounting Standards

Governmental Accounting Standards Board Statements No. 84 and 92 The District adopted the provisions of GASB Statement No. 84, Fiduciary Activities, as amended by GASB Statement No. 92, Omnibus 2020, for the fiscal year ended June 30, 2021. This statement provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. It establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. The statement has been applied retroactively to all periods presented. Accordingly, the District's financial statements have been presented in accordance with the guidance from this statement as follows:

- The Associated Students Trust Fund, Student Representation Fee Trust Fund, and Student Body Center Fee Trust Fund, reported previously as fiduciary trust funds and included in the District's Statement of Net Position, do not meet the new fiduciary criteria and are now reported as special revenue funds. Amounts previously reported as Amounts Held in Trust For Others is now reported as fund balance in these funds. Fund balances of the governmental funds and net position of the governmental activities, as of July 1, 2020, have been restated by \$1,334,955.
- The Kern Community College Public Retirement System (OPEB Trust) under this new standard is considered a fiduciary component unit due to the District's financial burden to make contributions to the trust. Therefore the OPEB Trust is now reported as a fiduciary component unit beginning July 1, 2020. Net position restricted for postemployment benefits other than pensions as of July 1, 2020, has been restated by \$69,154,876.

Basis of Presentation and Accounting The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities (BTA). Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. All significant intra-agency transactions have been eliminated.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Exceptions to the accrual basis of accounting are as follows:

In accordance with industry standards provided by the California Community Colleges Chancellor's Office, summer session tuition and fees received before year end are recorded as advances from grantors and students as of June 30 with the revenue reported in the fiscal year in which the program is predominately conducted.

The budgetary and financial accounts of the District are recorded and maintained in accordance with the *Budget and Accounting Manual* issued by the California Community Colleges Chancellor's Office.

Cash and Cash Equivalents For purposes of the statement of cash flows, the District considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested in the County Treasurer's investment pool are considered cash equivalents.

Investments GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, provides that amounts held in external investment pools be reported at fair value. However, cash in the County Treasury and investments in the Local Agency Investment Fund (LAIF) are recorded at the value of the pool shares held, which approximates the fair value of the underlying cash and investments of the pool.

All other investments are reported at fair value based on quoted market prices with realized and unrealized gains or losses reported in the statement of revenues, expenses, and changes in net position.

Restricted Cash and Investments Restricted cash and investments include cash restricted for the repayment of debt, for use in the acquisition or construction of capital assets, for restricted programs, for any other restricted purpose, or in any funds restricted in purpose per the *California Community Colleges Budget and Accounting Manual*.

Accounts Receivable Accounts receivable consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the state of California. Accounts receivable also include amounts due from federal, state, and local governments, or private sources, in connection with reimbursement of allowable expenses made pursuant to the District's grants and contracts. The District provides for an allowance for uncollectible accounts as an estimation of amounts that may not be received. The allowance for uncollectible accounts is calculated by applying certain percentages to each aging group. The allowance was estimated at \$10,220,673 for the year ended June 30, 2021.

Prepaid Expenses Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. Where historical cost is not available, estimated historical cost is based on replacement cost reduced for inflation. Capitalized equipment includes all items with a unit cost of \$5,000 or more and estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expenses in the year in which the expense was incurred.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 15 years for portable buildings, 10 years for site improvements, and 3 to 8 years for equipment and vehicles.

The District has entered into two significant joint facility use agreements with other public agencies. These agreements call for the prepayment of lease costs by the District in exchange for designated future use of specific facilities being constructed by various other public agencies. These prepayments were designated to be utilized to complete construction of the new facilities to be jointly used by the District and other public agencies. Based on management's interpretation of current generally accepted accounting principles, these payments meet the definition of a capital asset due to the long-term nature of the agreements even though the District does not have an actual ownership interest in the capital assets underlying the agreements.

			Prepaid
Contracting Public Agencies	Term	Facilities	Amount
Dalama laint Huinn Hink			
Delano Joint Union High			
School District	50 Years	Gymnasium and Lecture Center	\$ 4,000,000
Mono County Library Authority,			
Mono County Board of Education	,		
and Mammoth Unified School			
District	90 Years	Library	\$ 3,500,000

Advances From Grantors and Students Advances from grantors and students include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year that relate to the subsequent accounting period. Advances from grantors and students also include amounts received from grant and contract sponsors that have not yet been earned.

Compensated Absences Accumulated and vested unpaid employee vacation benefits and compensatory time are recognized as liabilities of the District as the benefits are earned.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires, if the employee is a member of California Public Employees' Retirement System (CalPERS) or California State Teachers' Retirement System (CalSTRS).

Long-Term Liabilities Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which does not differ materially from the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the year incurred. Amortization of bond premiums and discount costs was \$2,234,443 for the year ended June 30, 2021.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

OPEB For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the District's OPEB Plan (the Plan), and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension For purposes of measuring the net pension liability, deferred outflows of resources/deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and CalPERS and additions to/deductions from STRP's and CalPERS's fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable with the benefit terms. Investments are reported at fair value.

Fair Value Measurements The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; and level 3 inputs are significant unobservable inputs.

Deferred Outflows/Inflows of Resources In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period, which will only be recognized as an outflow of resources (expense) in the future.

District contributions subsequent to the measurement date related to pension plans, are reported as deferred outflows of resources in the statement of net position. District contributions subsequent to the measurement date will be amortized during the next fiscal year.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and would only be recognized as an inflow of resources (revenue) at that time.

Changes in proportion and differences between the District's contributions and proportionate share of pension contributions, the District's proportionate share of the net difference between projected and actual earnings on pension plan investments, changes in assumptions, and the differences between the District's expected and actual experience, are reported as deferred inflows of resources or deferred outflows of resources in the statement of net position. These amounts are amortized over the estimated service lives of the pension plan participants.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Differences between projected and actual earnings on OPEB plan investments, changes in assumptions, and the differences between the District's expected and actual experience, are reported as deferred inflows or deferred outflows of resources in the statement of net position. These amounts are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided OPEB through the OPEB plan.

The District also has a deferred loss on refunding which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Net Position The District's net position is classified as follows:

Net Investment in Capital Assets: This represents the District's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted Net Position - Expendable: Restricted expendable net position represents resources which are legally or contractually obligated to be spent in accordance with restrictions imposed by external third parties.

Unrestricted Net Position: Unrestricted net position represents resources derived from student tuition and fees, state apportionments, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the District, and may be used at the discretion of the governing board to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the District's policy is to first apply the expense toward restricted resources, and then toward unrestricted resources.

Classification of Revenues The District has classified its revenues as either operating or nonoperating. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues, including state appropriations, local property taxes, and investment income. Revenues are classified according to the following criteria:

Operating Revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as: (1) student tuition and fees, net of scholarship discounts and allowances; (2) sales and services of auxiliary enterprises; and (3) some federal, state, and local grants and contracts, and federal appropriations.

Nonoperating Revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources, such as state appropriations, financial aid, and investment income.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Scholarship Discounts and Allowances Student tuition and fee revenue are reported net of scholarship discounts and allowances in the statement of revenues, expenses, and changes in net position. Scholarship discounts and allowances represent the difference between stated charges for goods and services provided by the District and the amount that is paid by students and/or third parties making payments on the students' behalf.

State Apportionments Certain current-year apportionments from the state are based on various financial and statistical information of the previous year as well as state budgets and other factors outside the District's control. In February, subsequent to the year end, the state will perform a recalculation based on actual financial and statistical information for the year just completed. The District's policy is to estimate the recalculation correction to apportionment, if any, based on factors it can reasonably determine such as local property tax revenue received and reductions in FTES. Any additional corrections determined by the state are recorded in the year computed by the state.

Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Property Taxes Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on November 1 and February 1, and become delinquent if paid after December 10 and April 10. Unsecured property taxes are payable in one installment on or before August 31. The County of Kern bills and collects the taxes for the District.

Budget and Budgetary Accounting By state law, the District's governing board must approve a tentative budget no later than July 1, and adopt a final budget no later than September 15 of each year. A hearing must be conducted for public comments prior to adoption. The District's governing board satisfied these requirements.

The budget is revised during the year to incorporate categorical funds that are awarded during the year and miscellaneous changes to the spending plans. The District's governing board approves revisions to the budget.

On-Behalf Payments GASB Statement No. 24 requires that direct on-behalf payments for fringe benefits, and salaries made by an entity to a third-party recipient for the employees of another legally separate entity be recognized as revenue and expenses by the employer government. The state of California makes direct on-behalf payments for retirement benefits to CalSTRS and CalPERS on behalf of all community college districts in California. The amount reported in the basic financial statements as of June 30, 2021, was \$1,827,485.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS

The cash and cash equivalents are as follows:

June 30, 2021

Cash and cash equivalents	\$ 118,386,022
Restricted cash and cash equivalents	152,765,686
Total Cash and Cash Equivalents	\$ 271,151,708

The carrying amount of the District's cash is summarized as follows:

June 30, 2021

Cash in County Treasury	\$ 268,807,618
Cash on hand and in banks	2,175,024
Cash held by trustees	169,066
Total Cash and Cash Equivalents	\$ 271,151,708

As provided for by *California Education Code*, Section 41001, a significant portion of the District's cash balances of most funds is deposited with the Kern County Treasurer for the purpose of increasing interest earned through County investment activities. The County Treasury's Pooled Money Investment accounts weighted average maturities were less than two years at June 30, 2021, and the pool is unrated.

Copies of the County's audited financial statements can be obtained from the Kern County Auditor-Controller's Office, 1115 Truxtun Avenue, Bakersfield, California 93301-4639.

The pooled treasury has regulatory oversight from the Kern County Treasury Oversight Committee in accordance with *California Government Code* requirements.

The *California Government Code* requires California banks and savings and loan associations to secure the District's deposits by pledging government securities as collateral. The market value of pledged securities must equal 110% of an entity's deposits. California law also allows financial institutions to secure an entity's deposits by pledging first trust deed mortgage notes having a value of 150% of an entity's total deposits.

All cash held by financial institutions is collateralized by securities that are held by the broker or dealer, or by its trust department or agent, but not in the District's name. In addition, \$607,882 of the bank balances at June 30, 2021, are insured.

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

The District's investment policy is consistent with *California Government Code* as it relates to investment vehicles. The District's investment policy authorizes the District to invest in the following:

- U.S. Treasury notes, bonds, and bills
- Registered warrants, treasury notes, and bonds of the State of California
- Registered treasury notes or bonds of any of the other 49 states in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the other 49 states, in addition to California
- Obligations issued by, or fully guaranteed as to principal and interest by the Federal National Mortgage Association or instruments issued by a federal agency
- Bankers' acceptances which are eligible for purchase by the Federal Reserve System
- Rated commercial paper (A1 or P1)
- Negotiable certificates of deposit
- Repurchase agreements and reverse repurchase agreements with Master Agreement under California law
- Medium-term notes with a maximum of five (5) years maturity issued by U.S. Corporations and rated A or better
- Money market mutual funds meeting criteria prescribed in California Government Code, Section 53601
- Local Agency Investment Fund (LAIF)
- Passbook savings account demand deposits
- Interest-bearing demand deposits with the County of Kern Auditor-Controller

Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; and level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2021:

- County treasurer's investment pool and the Investments in LAIF are valued using quoted prices for similar instruments in active markets and quoted prices for identical or similar instruments in markets that are not active (level 2 inputs).
- U.S. Treasury securities are valued using quoted market prices (level 1 inputs).
- Taxable municipal bonds are valued using quoted market prices (level 1 inputs).
- Corporate bonds are valued using a matrix pricing model (level 2 inputs).

The District's investments are as follows:

June 30, 2021		Level 1		Level 2
County treasury pool	\$	_	\$	268,807,618
Investments in LAIF	,	_	•	960,744
Bank clearing account		-		-
Certificates of deposit		2,426,390		-
Money market		3,019,874		-
Municipal bonds		-		1,903,269
Corporate bonds and notes:				
Communication		-		-
Energy		-		389,554
Financial services		-		1,261,268
Technology		-		-
Other		-		251,342
U.S. Government agency securities		1,624,427		
Total Investments	\$	7,070,691	\$	273,573,795

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The District participates in the LAIF, a voluntary program created by statute (*California Government Code*, Section 16429). The Local Investment Advisory Board provides oversight for LAIF. Market valuation is conducted monthly and fund policies, goals, and objectives are reviewed annually. The District has the right to withdraw its deposited monies from LAIF upon demand. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, and corporations. LAIF's exposure and the District's related exposure to credit, market, and legal risk is not available. Foreign bonds are dollar-denominated bonds of companies based outside the United States of America.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates that will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity its fair value is to changes in market interest rates. The District manages its exposure to interest rate risk using multiple strategies. Those strategies are as follows:

- 1. The implementation of a "ladder" in which bond maturities are staggered evenly over a five-year period. This partially neutralizes interest rate risk by giving the District the flexibility of reinvesting shorter-term securities in higher interest rates (assuming interest rates are moving up) and locking in a portion of the portfolio at higher rates on a longer term basis if interest rates move downward. The overall goal is to provide a more competitive "average" yield on the portfolio as opposed to making directional yield curve projections at various points on the curve.
- 2. The District also diversifies through investing in credit quality securities. Over 63% of the portfolio is currently weighted in AAA-rated securities. These securities tend to perform better in volatile interest rate environments. The District's bias is to keep a solid majority of the portfolio in AAA-rated securities at all times for capital preservation purposes.
- 3. The District invests in "step-up" coupon bonds and some "floating-rate" debt in the portfolio. This also assists in cushioning the portfolio from credit risk during periods of higher interest rates.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table of the District's investments by maturity:

		Investment Maturiti					Maturities
June 30, 2021	Fair Value		Less Than One Year		One to Five Years		More Than Five Years
Investment in LAIF	\$ 960,744	\$	960,744	\$	-	\$	-
Bank clearing account	-		-		-		-
Certificates of deposit	2,426,390		238,001		2,188,389		-
Municipal bonds	1,903,269		-		1,595,530		307,739
Money market	3,019,874		3,019,874		-		-
Corporate bonds and notes	1,902,164		-		1,902,164		-
U.S. Government agency securities	1,624,427		-		1,624,427		-
Total Investments	\$ 11,836,868	\$	4,218,619	\$	7,310,510	\$	307,739

Concentration of Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. This is measured by ratings assigned by nationally-recognized organizations. The following represents the actual ratings of the investment types:

								Inves	tme	nt Ratings
June 30, 2021	Fair Value	e AA	4	AA+	AA	AA-	A+	Α		Unrated
Investment in LAIF	\$ 960,744	\$ -	\$	-	\$ -	\$ -	\$ -	\$ -	\$	960,744
Bank clearing account	-	-		-	-	-	-	-		-
Certificates of deposit	2,426,390	2,426,390	1	-	-	-	-	-		-
Municipal bonds	1,903,269	775,296	i	365,053	657,664	105,256	-	-		-
Money market	3,019,874	3,019,874		-	-	-	-	-		-
Corporate bonds and notes	1,902,164	-		-	254,377	135,176	753,648	758,963		-
U.S. Government agency securities	1,624,427	1,624,427	'	-	-	-	-	-		-
Total Investments	\$11,836,868	\$ 7,845,987	\$	365,053	\$ 912,041	\$ 240,432	\$ 753,648	\$ 758,963	\$	960,744

Concentration risk is defined as positions of 5% or more in the securities of a single issuer. The District's investment policy contains no limitations on the amount that can be invested in any single issuer. A total of 24% of the District's investments are in Federal National Mortgage Association and Federal Home Loan Bank, which are U.S. government-sponsored enterprises.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The U.S. Government agency securities (Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Farm Credit Bank and Federal Home Loan Bank) are mortgage-backed securities which entitle the purchaser to receive a share of the cash flows, such as principal and interest payments, from a pool of mortgages. Mortgage securities are sensitive to interest rate changes because principal payments either increase (in a low interest rate environment) or decrease (in a high interest rate environment). A change, up or down, in the payment rate will result in a change in the security yield.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty (e.g., financial institution, broker-dealer) to a transaction, a government will not be able to recover the value of its cash and investments or collateral securities that are in the possession of another party.

For investments, the District's policy requires that a third-party bank trust department hold all securities owned by the District in the District's name.

3. ACCOUNTS RECEIVABLE

Accounts receivable consisted of the following:

June 30, 2021

Tuition and fees Less: Allowance for doubtful accounts	\$ 47,885,106 10,220,673
Tuition and Fees - Net	37,664,433
Federal grants and contracts	8,145,810
State grants and contracts	4,345,131
Local grants and contracts	975,290
State taxes and other revenues	1,253,752
Other	702,631
Total	\$ 53,087,047

NOTES TO THE FINANCIAL STATEMENTS (Continued)

4. CAPITAL ASSETS

Capital assets activity is summarized as follows:

June 30, 2021	Beginning Balance	Additions	Deductions	Transfers	Ending Balance
Nondepreciable Capital Assets					
Land	\$ 19,277,546	\$ -	\$ -	\$ -	\$ 19,277,546
Construction in progress	93,025,827	77,715,460	-	(21,431,096)	149,310,191
Total Nondepreciable Capital Assets	\$ 112,303,373	\$ 77,715,460	\$ -	\$ (21,431,096)	\$ 168,587,737

--------	------	-----

Accrued payroll and related liabilities	\$ 8,785,847
Construction payables	14,203,403
Other	9,824,294
Total	\$ 32,813,544

NOTES TO THE FINANCIAL STATEMENTS (Continued)

6. BOND ANTICIPATION NOTES

On November 10, 2020, the District issued capital appreciation bond anticipation notes (BANs) in the amount of \$52,998,182. The District paid \$140,000 in issuance costs from the proceeds. The proceeds from the BANs will be used to finance the various bond projects of the District and were issued as a short-term approach to respond to the downturn in oil producing property values. At June 30, 2021, \$53,111,303 of BANs were issued and outstanding. The BANs mature on August 1, 2023 in the amount of \$54,385,000, which includes accreted interest of \$1,386,818.

7. LONG-TERM LIABILITIES

The long-term liability activity is as follows:

June 30, 2021	Beginning Balance	Accretion/ Additions	Reductions	Ending Balance	Current Portion
Certificates of participation	\$ 25,406,722	\$ -	\$ 1,500,358	\$ 23,906,364	\$ 1,350,000

Net Principal					\$ 430,047,121	\$ 13,491,481	\$ 443,538,602

8. OPERATING LEASES

The District leases office and classroom facilities and other equipment under noncancelable operating leases. Total costs for such leases for the year ended June 30, 2021, were \$1,101,836.

The future minimum lease payments are as follows:

Years Ending June 30	
2022	\$ 1,765,971
2023	1,731,726
2024	1,704,986
2025	1,669,391
Total	\$ 6,872,074

9. EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under cost-sharing multiple-employer defined benefit pension plans maintained by agencies of the state of California. Certificated employees are members of CalSTRS, and classified employees are members of CalPERS.

Summary

Net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are reported as follows:

	Net Pension	Deferred Outflows of	Deferred Inflows of	Pension
June 30, 2021	Liability	Resources	Resources	Expense
CalSTRS State Teachers'				
Retirement Plan	\$ 113,383,530	\$ 40,081,831 \$	4,615,940	\$ 17,338,950
CalPERS School Employer Pool	80,025,758	15,497,517	1,064,503	15,666,005
Total	\$ 193,409,288	\$ 55,579,348 \$	5,680,443	\$ 33,004,955

Net pension liability, deferred outflows of resources, and deferred inflows of resources are reported in the accompanying statement of net position; pension expense is reported in the accompanying statement of revenue, expenses, and changes in net position.

California State Teachers' Retirement System

Plan Description Certificated employees of the District participate in STRP, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. Benefit provisions are established by state statute, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues publicly available financial reports that can be obtained at www.calstrs.com.

Benefits Provided STRP provides retirement, disability, and survivor benefits to beneficiaries. The defined benefit program provides retirement benefits based on members' final compensation, age, and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. The program has two benefit formulas:

• CalSTRS 2% at 60 CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0% of final compensation multiplied by the number of years of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to a maximum of 2.4% at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2% to the age factor, up to the 2.4% maximum.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

• CalSTRS 2% at 62 CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0% of final compensation multiplied by the number of years of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4% at age 65 or older.

Contributions Required member, employer, and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Active plan members of the CalSTRS 2% at 60 formula are required to contribute 10.25% of their salary. Active plan members of the CalSTRS 2% at 62 formula are required to contribute 10.205% of their salary. The required employer contribution rate for fiscal year 2020-21 was 16.15% of annual payroll. The District's contributions to CalSTRS for the fiscal year ended June 30, 2021, were \$9,793,738.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions At June 30, 2021, the District reported a net pension liability for its proportionate share of the net pension liability that reflected a reduction for state pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District, were as follows:

June 30, 2021

District's proportionate share of the net pension liability State's proportionate share of the net pension liability	\$ 113,383,530
associated with the District	58,448,750
Total	\$ 171,832,280

The District's net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, rolled forward to June 30, 2020, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2021, the District's proportion was .117%.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

State Teachers' Retirement Law also requires the state to contribute 10.328% of the members' creditable earnings from the fiscal year ending in the prior calendar year. *California Education Code*, Section 22950.6 appropriated an additional \$2,246,000,000 from the state's General Fund for the 2018–19 fiscal year to be transferred to the Teachers' Retirement Fund to reduce school employers' contributions and unfunded liabilities for the 2019-20 and 2020-21 fiscal years. For the year ended June 30, 2021, the District recognized pension expense of \$1,827,485 and revenue of \$1,827,485 for support provided by the state. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Resources	Deferred Inflows Resources
Changes of assumptions	\$ 11,054,494	\$ -
Net difference between projected and actual		
earnings on pension plan investments	2,692,638	-
Differences between expected and actual experience	200,070	3,195,576
Changes in proportion and differences between District		
contributions and proportionate share of contributions	16,340,891	1,420,364
District contributions subsequent to the measurement date	9,793,738	
Total	\$ 40,081,831	\$ 4,615,940

The \$9,793,738 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	
2022	\$ 4,712,132
2023	6,971,509
2024	7,347,693
2025	4,171,181
2026	1,495,231
Thereafter	974,407
Total	\$ 25,672,153

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Actuarial Assumptions The total pension liability in the June 30, 2019, actuarial valuation for CalSTRS was determined using the following actuarial assumptions and applied to all periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Investment rate of return	7.10%
Interest on accounts	3.00%
Wage growth	3.50%
Consumer price inflation	2.75%
Post-retirement benefit increases	2.00% simple

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table issued by the Society of Actuaries.

The actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2018.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process. The actuarial investment rate of return assumption was adopted by the board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS' independent consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of June 30, 2020, are summarized in the following table:

	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Asset Class		
Public equity	42%	4.80%
Private equity	13%	6.30%
Real estate	15%	3.60%
Inflation sensitive	6%	3.30%
Fixed income	12%	1.30%
Risk mitigating strategies	10%	1.80%
Cash/liquidity	2%_	-0.40%
Total	100%	

Discount Rate The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers were made at statutory contribution rates in accordance with the rate increases pursuant to Chapter 47, Statutes of 2014 (AB 1469). Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assumes that contributions, benefit payments, and administrative expenses occurred midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10%, as well as the District's proportionate share of the net pension liability if it was calculated using a discount rate that is one percentage point lower (6.10%) or one percentage point higher (8.10%) than the current rate:

		Current	
June 30, 2021	1% Decrease (6.10%)	Discount Rate (7.10%)	1% Increase (8.10%)
District's proportionate share of the net pension liability	\$ 171,306,720	\$ 113,383,530	\$ 65,559,780

Pension Plan Fiduciary Net Position Detailed information about the pension plan's fiduciary net position is available in CalSTRS' separately issued *Comprehensive Annual Financial Report* (CAFR).

California Public Employees' Retirement System

Plan Description Classified employees of the District participate in the School Employer Pool (the Plan) under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by state statute, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a publicly available financial report that can be obtained at www.calpers.ca.gov.

Benefits Provided The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The benefits are based on members' years of service, age, final compensation, and benefit formula. Members become fully vested in their retirement benefits earned to date after five years of credited service.

Contributions Member contribution rates are defined by law. Employer contribution rates are determined by periodic actuarial valuations. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. Active plan members that met the definition of a new member under the Public Employees' Pension Reform Act are required to contribute 7.00% of their salary. Classic employees are required to contribute 7.00% of their salary. The required employer contribution rate for the 2020-21 fiscal year was 20.70%. The District's contributions to CalPERS for the fiscal year ended June 30, 2021, were \$6,774,167.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions At June 30, 2021, the District reported a net pension liability of \$80,025,758 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, rolled forward to June 30, 2020, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2021, the District's proportion was .2608%.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the year ended June 30, 2021, the District recognized pension expense of \$15,666,005. *California Government Code*, Section 20825.2 appropriated \$904,000,000 from the state's General Fund for fiscal year 2018–19 to be transferred to the Public Employees' Retirement Fund, to reduce school employers' contributions and unfunded liabilities for the 2019-20 through 2021-22 fiscal years. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Resources	Deferred Inflows Resources
Difference between expected and actual experience	\$ 3,969,032	\$ -
Net difference between projected and actual		
earnings on pension plan investments	1,665,882	-
Changes in assumptions	293,458	-
Changes in proportion and differences between District		
contributions and proportionate share of contributions	2,794,978	1,064,503
District contributions subsequent to the measurement date	6,774,167	
Total	\$ 15,497,517	\$ 1,064,503

The \$6,774,167 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	
2022	\$ 3,358,566
2023	2,113,746
2023	1,390,067
2024	796,468
Total	\$ 7,658,847

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Actuarial Assumptions The total pension liability in the June 30, 2019, actuarial valuation for CalPERS was determined using the following actuarial assumptions applied to all periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Discount rate	7.15%
Inflation	2.50%
Salary increases	Varies by entry age and service
Investment rate of return	7.15%

Post-retirement mortality rates are based on CalPERS' experience and include 15 years of projected ongoing mortality improvement using 90% of Scale MP 2016 published by the Society of Actuaries. These tables are used to estimate the value of benefits expected to be paid for service and disability retirements. For disability retirements, impaired longevity is recognized by a separate table.

The actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 1997, through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The tables below reflect long-term expected real rates of return by asset class. The rates of return were calculated using the capital market assumptions applied to determine the discount rate.

	Assumed Asset	Real R	ate of Return
	Allocation	Years 1 - 10	Years 11+
Asset Class			
Global equity	50%	4.80%	5.98%
Fixed income	28%	1.00%	2.62%
Inflation assets	0%	0.77%	1.81%
Private equity	8%	6.30%	7.23%
Real estate	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%
Total	100%		

Discount Rate The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15%, as well as the District's proportionate share of the net pension liability if it was calculated using a discount rate that is one percentage point lower (6.15%) or one percentage point higher (8.15%) than the current rate:

	Current				
June 30, 2021	1% Decrease (6.15%)	Discount Rate (7.15%)	1% Increase (8.15%)		
District's proportionate share of the net pension liability	\$ 115,051,620	\$ 80,025,758	\$ 50,956,050		

Pension Plan Fiduciary Net Position Detailed information about the pension plan's fiduciary net position is available in CalPERS' separately issued CAFR.

10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

Plan Description and Benefits Provided

The District provides postemployment healthcare benefits for eligible employees who retire with CalSTRS or CalPERS pension benefits immediately upon termination of employment from the District through the Kern Community College District Postretirement Health Benefits Plan (the Plan). The Plan is a single employer OPEB plan and obligations of the Plan members and the District are based on negotiated contracts with the various bargaining units of the District.

Retirees are eligible for benefits depending on their most recent date of hire and their benefit eligibility service. The District pays up to 100% of the eligible retirees' medical, dental, and vision plan premiums. The retirement health benefit may continue for the lifetime of a surviving spouse and for other dependents as long as they are entitled to coverage under pertinent eligibility rules.

Employees Covered

Employees covered by the benefit terms of the Plan consisted of:

June 30, 2021

Inactive Plan members or beneficiaries currently receiving benefit payments	1,057
Active Plan members	421
Total	1,478

Contributions

The contribution requirements are established and may be amended by the District and the District's bargaining units. The required contribution is based on projected pay-as-you-go financing requirements. Additionally, the District has established an irrevocable trust (the Trust) with Union Bank of California through the Retiree Health Benefit Program Joint Powers Authority to prefund a portion of retiree health benefit costs.

The District issued OPEB bonds in a prior year to assist with the funding of the obligation and the Trust will be funded with contributions based on the District's approved final budget annually.

Net OPEB Liability

The District's net OPEB liability for the Plan is measured as the total OPEB liability, less the Plan's fiduciary net position. The net OPEB liability of the Plan is measured as of June 30, 2020, using an annual actuarial valuation as of June 30, 2020. The June 30, 2021, total OPEB liability was based on the actuarial methods and assumptions as shown below.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	June 30, 2020
Measurement date	June 30, 2020
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Investment rate of return/discount rate	5.00% (1)
Salary increases	2.75%
Consumer price inflation	2.75%
Healthcare cost trend rate	4.00%

⁽¹⁾ Net of investment expenses.

Mortality rates were based on the following tables that were based on the employee's classification.

Employee Type	Mortality Tables
Certificated	2020 CalSTRS Mortality (1)
Classified	2017 CalPERS Retiree Mortality for All Employees (2)
Miscellaneous 2017 CalPERS Mortality for Miscellaneous and School Employee	

- 1. The mortality assumptions are based on the 2020 CalSTRS Mortality table created by CalSTRS. CalSTRS periodically studies mortality for participating agencies and establishes mortality tables that are modified versions of the commonly used tables. This table incorporates mortality projections as deemed appropriate based on CalSTRS analysis.
- 2. The mortality assumptions are based on the 2017 CalPERS Retiree Mortality for All Employees table created by CalPERS. CalPERS periodically studies mortality for participating agencies and establishes mortality tables that are modified versions of the commonly used tables. This table incorporates mortality projections as deemed appropriate based on CalPERS analysis.
- 3. The mortality assumptions are based on the 2017 CalPERS Active Mortality for Miscellaneous and Schools Employees table created by CalPERS. CalPERS periodically studies mortality for participating agencies and establishes mortality tables that are modified versions of the commonly used tables. This table incorporates mortality projections as deemed appropriate based on CalPERS analysis.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of the following experience studies:

Table	Experience Study
Retirement	2017 CalPERS 2.0% at 55 Rates for Schools Employees
Retirement	2017 CalPERS 2.0% at 62 Rates for Schools Employees
Retirement	2020 CalSTRS 2.0% at 60 Rates
Retirement	2020 CalSTRS 2.0% at 62 Rates
Turnover	2017 CalPERS Termination Rates for School Employees
Turnover	2020 CalSTRS Termination Rates

CalSTRS and CalPERS periodically study the experience for participating agencies and establishes tables that are appropriate for each pool.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The best estimates of mathematical real rates of return for each major asset class included in the target asset allocation as of June 30, 2021, are summarized in the following table:

Asset Class	Percentage of Portfolio	Long-Term Expected Real Rate of Return
US large cap	29%	7.795%
US small cap	13%	7.795%
Foreign stock	9%	7.795%
Other fixed income	49%	3.250%

Discount Rate

The discount rate used to measure the total OPEB liability was 5.0%. The projection of cash flows used to determine the discount rate assumed that all contributions are from the District. An historic 17 year real-rates-of-return for each asset class along with an assumed long-term inflation assumption was used to set the discount rate. The expected investment return was offset by expected investment expenses of 50 basis point. The interest assumption reflects a municipal bond rate based on the Bond Buyer 20 Index at June 30, 2020. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Changes in the Net OPEB Liability

The changes in the net OPEB liability for the Plan are as follows:

Year Ended June 30, 2021

Total OPEB Liability	
Service cost	\$ 3,097,345
Interest	4,806,623
Benefit payments - including refunds of employee contributions	(4,974,510)
Difference between expected and actual experience	(2,628,186)
Experience (gains)/losses	(6,203,264)
Changes in benefit terms	(39,222,004)
Changes in assumptions	(2,916,511)
Other **	2,492,630
Net Change in Total OPEB Liability	(45,547,877)
Total OPEB Liability - Beginning of Year	119,925,615
Total OPEB Liability - End of Year (a)	74,377,738
Plan Fiduciary Net Position	
Contributions - employer	1,983,767
Net investment income	4,020,326
Benefit payments - including refunds of employee contributions	(4,974,510)
Other *	571,286
Net Change in Plan Fiduciary Net Position	1,600,869
Plan Fiduciary Net Position - Beginning of Year	67,554,007
Plan Fiduciary Net Position - End of Year (b)	69,154,876
Plan Net OPEB Liability - End of Year ((a) - (b))	\$ 5,222,862
Plan fiduciary net position as a percentage of the total OPEB liability	92.98%
Covered-employee payroll	\$ 26,672,863
District's net OPEB liability as a percentage of covered-employee payroll	 19.58%

 $[\]hbox{** Amount represents net change in total OPEB liability related to the 2020 audited Plan statements.}$

^{*} Amount represents net change in plan fiduciary net position related to the 2020 audited Plan statements.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's net OPEB liability calculated using the discount rate of 5.00%, as well as the District's net OPEB liability if it was calculated using a discount rate that is one percentage point lower (4.00%) or one percentage point higher (6.00%) than the current rate:

			Current	
June 30, 2021	1% Decrease Discount Rate (4.00%) (5.00%)		1% Increase (6.00%)	
Net OPEB liability	\$ 11,877,307	\$	5,222,862	\$ (578,564)

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the District's net OPEB liability calculated using the healthcare cost trend rate of 4.00%, as well as the District's net OPEB liability if it was calculated using a healthcare trend rate that is one percentage point lower (3.00%) or one percentage point higher (5.00%) than the current rate:

	Health Cost				st		
		1% Decrease		Trend Rates		1% Increase	
June 30, 2021		(3.00%)		(4.00%)		(5.00%)	
Net OPEB liability	\$	(1,356,662)	\$	5,222,862	\$	12,828,187	

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2021, the District recognized OPEB expense of \$30,435,649. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience Net difference between projected and actual	\$ 11,821,737	\$ 10,101,865
earnings on Plan investments	-	704,469
Change in assumptions	13,564,672	2,596,015
Total	\$ 25,386,409	\$ 13,402,349

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Amounts reported as deferred inflows and deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30	
2022	\$ 1,648,087
2023	1,677,339
2024	1,905,773
2025	1,972,549
2026	2,061,478
Thereafter	2,718,834
Total	\$ 11,984,060

Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the separately issued OPEB financial report held by the District.

11. COMMITMENTS AND CONTINGENCIES

Federal and State Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenses disallowance under terms of the grants, management believes that any required reimbursements will not be material.

COVID-19

The novel coronavirus, COVID-19, was declared a worldwide pandemic by the World Health Organization on March 11, 2020. The ongoing pandemic has caused an economic downturn on a global scale, disrupted global supply chains, and created significant uncertainty, volatility, and disruption across economies and financial markets. The COVID-19 pandemic remains a rapidly-evolving situation. The impact of the pandemic on the District's operations and financial performance will depend on future developments, including government mandates and duration of the pandemic, all of which are uncertain and difficult to predict. As a result, it is not currently possible to assess the overall impact of COVID-19 on the District's future. However, if the pandemic continues, the disease could have a material adverse effect on the District's results of operations, financial condition, and cash flows. Management is monitoring the situation on a daily basis in order to mitigate the potential impact of COVID-19 on the District's operations and financial performance.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

CONSTRUCTION COMMITMENTS

The District had unfinished construction contracts under the following project categories:

June 30, 2021

Bakersfield College Administrative Services	\$ 4,388,395
Bakersfield College Student Center/ABC Building	1,815,487
Bakersfield College Combined Gym and Fieldhouse	41,571,403
Bakersfield College Science & Engineering Building	20,686,815
Bakersfield College Welcome Center	4,700,983
Cerro Coso Maintenance & Operating Facilities	1,501,221
Other	485,034
Total	\$ 75,149,338

12. RISK MANAGEMENT

The District participates in three joint powers agreements (JPAs) with the Self-Insured Schools of California Workers' Compensation Program (SISC I), Self-Insured Schools of California Property and Liability Program (SISC II), and Self-Insured Schools of California Health Benefits Program (SISC III). Self-Insured Schools of California (SISC) arranges for and provides insurance for its members. SISC groups are governed by boards consisting of representatives from member districts. The boards control the operations of SISC, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in SISC.

Coverage includes property, liability/auto, crime, and boiler/machinery insurance. Liability losses in excess of the District's \$1,000 retention amount are covered up to \$1,500,000 per occurrence. Coverage above the \$1,500,000 level up to \$50,000,000 is afforded by three excess commercial insurers. Property losses in excess of the District's \$5,000 retention amount are covered up to \$250,000 per occurrence. Coverage above the \$250,000 level up to \$140,000,000 is afforded by three excess commercial insurers. There has been no significant reduction in any of the insurance coverages from prior year. Settled claims resulting from these programs have not exceeded insurance coverage in each of the past three fiscal years.

The District has recorded no excess insurance reserves being held by SISC as of June 30, 2021.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

13. FUTURE GASB IMPLEMENTATION

In June 2017, GASB issued Statement No. 87, *Leases*. This statement improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The District's management has not yet determined the impact that the implementation of this standard, which is required on July 1, 2021, will have on the District's financial statements, if any.

SCHEDULE OF CHANGES IN THE NET OPEB LIABILITY AND RELATED RATIOS

Years Ended June 30	2021	2020*	2019	2018	2017
Total OPEB Liability

1. SCHEDULE OF CHANGES IN THE NET OPEB LIABILITY AND RELATED RATIOS

Changes in Benefit Terms

For the measurement period ended June 30, 2020, the District modified employee benefit coverage from credible to noncredible. The District continues to provide health insurance benefits to its active and retired employees through the Self-Insured Schools of California (SISC), Joint Powers Authority.

Changes in Assumptions

For the measurement period ended June 30, 2020, the discount rate was increased from 4.00% to 5.00% to reflect rates of retirement, termination, and mortality to align with those currently being used by statewide pension systems.

2. CHANGES OF BENEFIT TERMS

California State Teachers' Retirement System

There were no significant changes of benefit terms during the measurement period ended June 30, 2020.

California Public Employees' Retirement System

There were no significant changes of benefit terms during the measurement period ended June 30, 2020.

3. CHANGES OF ASSUMPTIONS

California State Teachers' Retirement System

On January 31, 2020, the CalSTRS board adopted new actuarial assumptions based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2018. These assumptions were reflected in the valuation dated June 30, 2019.

California Public Employees' Retirement System

There were no significant changes of assumptions during the measurement period ended June 30, 2020.

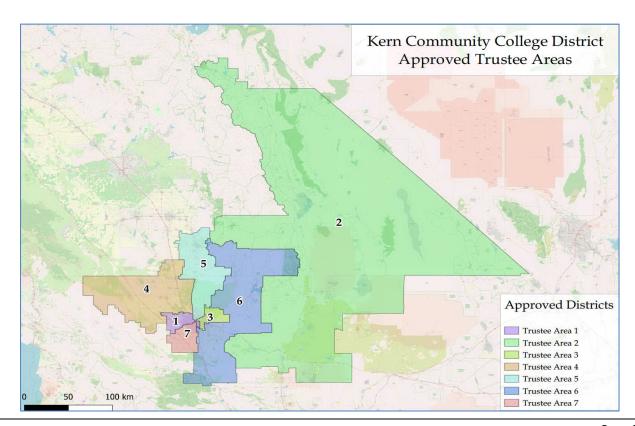

ORGANIZATION STRUCTURE June 30, 2021

The District was established in 1968, and serves communities over 24,800 square miles in parts of Kern, Tulare, Inyo, Mono, and San Bernardino counties through the programs of Bakersfield College, Cerro Coso College and Porterville College. Governed by a locally elected Board of Trustees, the district's colleges offer programs and services that develop student potential and create opportunities for their citizens. The District is geographically one of the largest community college districts in the United States, serving more than 30,000 students. During the current year the Board of Trustees adopted a resolution establishing a new Trustee Areas map and election sequence for the District.

BOARD OF TRUSTEES

Name	Office	Trustee Area	Term Expires

1. PURPOSE OF SCHEDULES

Schedule of Workload Measures for State General Apportionment Annual Attendance

The Schedule of Workload Measures for State General Apportionment Annualized Attendance as of June 30, 2021, represents the basis of apportionment of the District's annual source of funding.

Schedule of Expenditures of Federal Awards

This schedule includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance).

Expenditures reported on this schedule are reported on the modified basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

The District has not elected to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

Schedule of Expenditures of State Awards

This schedule includes the state activity of the District under categorical programs of the state of California for the year ended June 30, 2021. The information in this schedule is presented in accordance with the requirements of the California Community Colleges Contracted District Audit Manual 2020-21.

Expenses reported on this schedule are reported on the accrual basis of accounting.

Reconciliation of Annual Financial and Budget Report (CCFS-311) With District Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCFS-311 to the District accounting records.

Reconciliation of 50% Law Calculation

This schedule provides the information necessary to reconcile the 50% law calculation as reported on the Form CCFS-311 to the audited financial statements.

Reconciliation of Education Protection Account Expenditures

This schedule provides the information necessary to reconcile the Education Protection Account Expenditures reported on the Form CCFS-311 to the audited financial statements.

NOTES TO THE OTHER SUPPLEMENTARY INFORMATION (Continued)

Reconciliation of Fund Equity to Net Position and Reconciliation of Change in Fund Equity to Change in Net Position

These schedules provide the information necessary to reconcile the supplemental combining financial schedules to the audited financial statements.

2. COMBINING FINANCIAL STATEMENTS SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying Combining Balance Sheet — District Funds Included in the Reporting Entity, Combining Schedule of Revenues, Expenditures/Expenses, and Changes in Fund Equity — District Funds Included in the Reporting Entity are presented on the modified accrual basis of accounting with the exception of the Bookstore and Cafeteria Funds, which are presented on the accrual basis of accounting consistent with the presentation in the entity-wide financial statements.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are measurable and available). Measurable means the amount of the transaction can be determined, and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers property taxes available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Property taxes, franchise taxes, licenses, interest revenue, and charges for services are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and are recognized as revenue at that time.

The District reports advances from grantors and students on its combining balance sheet. Advances from grantors and students arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period. Advances from grantors and students also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has legal claim to the resources, the liability for advances from grantors and students is removed and revenue is recognized.

3. LOAN PROGRAMS

The District is responsible only for the performance of certain administrative duties with respect to the Federal Direct Loan Program. Accordingly, the value of these outstanding loans is not reflected in the District's financial statements. It is not practical to determine the balance of loans outstanding to students of the District under this program as of June 30, 2021.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Kern Community College District Bakersfield, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Kern Community College District (the District) as of and for the year ended June 30, 2021; and the related notes to the financial statements, which collectively comprise the District's basic financial statements; and have issued our report thereon dated January 25, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit; and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Kern Community College District Bakersfield, California

Report on Compliance for Each Major Federal Program

We have audited Kern Community College District's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2021. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

(Continued)

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program, and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

(Continued)

Purpose of This Report

Horton McNuly & Gaetewry, UP

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance, and the results of that testing, based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

January 25, 2022 Chico, California

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

To the Board of Trustees Kern Community College District Bakersfield, California

Compliance

We have audited the Kern Community College District's (the District) compliance with the types of state compliance requirements described in the *California Community Colleges Contracted District Audit Manual 2020-21*, published by the California Community Colleges Chancellor's Office, for the year ended June 30, 2021. The applicable state compliance requirements are identified in the table below.

Management's Responsibility

Compliance with the requirements referred to above is the responsibility of the District's management.

Auditors' Responsibility

Our responsibility is to express an opinion on the District's compliance with the state laws and regulations based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *California Community Colleges Contracted District Audit Manual 2020-21*, published by the California Community Colleges Chancellor's Office. Those standards and the *California Community Colleges Contracted District Audit Manual 2020-21* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on compliance with the state laws and regulations described in the schedule below occurred. An audit includes examining, on a test basis, evidence supporting the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide legal determination of the District's compliance with those requirements.
