### **Chancellor's Seminar – The Faculty Leadership Initiative Pilot: Results and Future Plans**

In the Fall 2021 semester, as part of the Kern CCD Chancellor's Office's focus on inter-district cooperation a 'Faculty Leadership Program' was piloted. Seven faculty members representing all three colleges participated in the program. Over the next several months, they met as a group with District Office staff, including retired Vice-Chancellor of Education Services John Means, Vice-Chancellor of Workforce and Economic Development Trudy Gerald, and Associate Vice-Chancellor, Enrollment Management Officer Steve Watkin, to review progress, and ask each other questions. In this Chancellor's Seminar, we will review

the group's projects and their assessment of the experience, as the Kern CCD prepares to unveil the next iteration of this important faculty initiative.
