

Director, Enterprise Applications
District Office
Kern Community College District
JOB DESCRIPTION

Definition

Reporting to the Chief Information Officer (CIO), the Director, Enterprise Applications is responsible for providing leadership, strategic direction, and guidance for the architecture, implementation, integration, maintenance and enhancement of KCCD's IT Enterprise Applications.

The Director, Enterprise Applications will lead the strategy, coordination, planning, and execution of IT Enterprise Application initiatives to enable KCCD in meeting its goals and objectives.

Examples of Duties

1. Provide overall vision and leadership to technical staff on overall Enterprise Application architecture.
2. Collaborate with stakeholders to enable the District to achieve its objectives through the effective use of technology.
3. Oversee and provide technical and functional guidance to IT staff and end users in areas such as Systems Analysis, Web and Mobile applications, ERP systems, Database Administration, Reporting/Decision-Support System and related systems.
4. Evaluate, recommend and implement Enterprise Application standards, upgrade procedures, documentation, and maintenance activities.
5. Recognize and advance opportunities for the utilization of the district's information technology investments.
6. Engage with Administrative and Instructional departments district wide to understand their operations, IT needs and translate this into the identification, prioritization, and implementation of key IT Enterprise Application projects.
7. Participate in strategic IT planning processes and collaboratively develop plans to address organizational needs and goals.
8. Manage vendor relationships including contract negotiation and compliance requirements.
9. Provide support for reporting requirements such as annual and term-based submittals of the Management Information Systems (MIS) data.

Examples of Duties (continued)

10. Train, supervise, and evaluate assigned professional staff; establish individual and department priorities, projects, tasks and responsibilities.
11. Create, plan and manage the Enterprise Applications budget and provides input in the administration of related budgets.
12. Serve as a leader and member of institutional committees and professional groups.
13. Explore innovations and trends in technology for institutional applicability.
14. Assist with and participate in KCCCD's IT Project Portfolio Management.
15. Represent the district at regional and statewide meetings related to IT.
16. Assess, plan, prioritize and direct the work effort required to effectively integrate KCCCD's Enterprise Applications with other IT systems used District wide.
17. Perform other duties as assigned.

Minimum Qualifications

Minimum:

- Bachelor's degree from an accredited college or university in Computer Science, Business, Management Information Systems or a related field.
- Five (5) years of successful experience in systems analysis and programming.
- Two (2) years of increasingly responsible experience in an Information Technology leadership position including staff supervision.
- Demonstrated sensitivity to and understanding of the diverse academic, socioeconomic, cultural, ethnic, and disability backgrounds of community college students and employees.

Desired:

- Master's degree from an accredited college or university in Computer Science, Business, Management Information Systems or related field.
- Five (5) years of increasingly responsible experience in an Information Technology leadership position including staff supervision.
- Experience in a higher education environment.

Knowledge and Abilities

- Knowledge of Enterprise Resource Planning systems, implementation, development, operations, maintenance, and support.
- Knowledge of Computer programming languages, utilities, and applications used in the District.
- Knowledge of Database management systems, data governance, reports, data warehouses and dictionaries.
- Knowledge of Web application development, maintenance, and integration.
- Knowledge of Advanced principles and techniques of systems analysis, design, programming, and documentation.
- Knowledge of District organization, operations, policies and objectives.
- Ability to plan, organize, and direct daily operations of assigned areas.
- Ability to communicate effectively both orally and in writing.
- Ability to maintain records and prepare reports.
- Ability to prioritize and schedule work.
- Ability to analyze situations and adopt an effective course of action.
- Ability to establish effective working relationships at all levels of the institution.
- Ability to encourage professional excellence among the staff and promote an organizational culture of customer service, innovation, and quality services.
- Ability to perform complex analysis and research, identify alternative solutions, forecast consequences of proposed actions and implement recommendations in support of goals.
- Ability to follow-up and follow-through in a coordinating role across multiple constituencies to achieve tactical and strategic goals.
- Ability to address technical issues in non-technical terms.
- Excellent oral and written communication skills.
- Self-directed/driven.
