Strategic Goal #2: Equity								
Objective #1 - Close Achievement Gaps								
Measure: Successful Course Completion (Completion with a Grade of "C" or Better, ATD Element 3)								
Explanation: Students in the ATD cohort (first-time, degree-seeking students enrolled on census) are tracked for one year to determine their successful course completion rate. Enrollments in all credit courses during the summer, fall and spring terms in their initial year are used. Successful course completion is determined using the following calculation: all grades of A,B,C,P divided by all grades of A, B, C, P, D, F, I, NP, W, and DR. Results shown in grey print are from groups with less than 30 where overall results are more influenced by individual results. The red and green bars illustrate achievement gaps relative to the overall (average) rate of each cohort. The longer the bar, the greater the gap.

1. As of Fall 2008, we began collecting, via the application form, whether students were currently part of the foster care system. In Fall 2012, a second question was added, asking if students were in foster care at any time after age 13. For this report, we have included students who answered in the affirmative for either of those questions.

2. For this report, we look at whether a student identified themselves as a Veteran in the Application or if they were verified to be a veteran through Admissions & Records.

Objective #1 - Close Achievement Gaps									
Measure: Attain a Certificate, Degree, and/or Transfer (ATD Element 5)									
Explanation: Students in the ATD cohort (first-time, degree-seeking students enrolled on census) are tracked for 3 years to see if they receive some type of an award and/or if they transfer to a four-year institution. Awards are tracked in two categories: degrees and certificates. Certificates include both certificates of achievement and job skills certificates. Results shown in grey print are from groups with less than 30 where overall results are more influenced by individual results. The red and green bars illustrate achievement gaps relative to the overall (average) rate of each cohort. The longer the bar, the greater the gap.

1. As of Fall 2008, we began collecting, via the application form, whether students were currently part of the foster care system. In Fall 2012, a second question was added, asking if students were in foster care at any time after age 13. For this report, we have included students who answered in the affirmative for either of those questions.

2. For this report, we look at whether a student identified themselves as a Veteran in the Application or if they were verified to be a veteran through Admissions & Records.
