

Collective Partnership Agreement Letter Community Economic Resilience Fund: Kern County

Dear Kern HRTC Convener:

is pleased to inform you that we are in agreement with the goals of the Community Economic Resilience Fund (CERF) Kern High Road Transition Collaborative proposal for the Kern region developed by the Kern Coalition, the Regional Convener, and the Kern Community College District, the Fiscal Agent.

We have reviewed the initial governance model for the Kern High Road Transition Collaborative (KHRTC). We understand that this governance model may change as the process evolves.

We agree to participate in the KHRTC CERF planning process that includes providing input and ideas for the development of a regional economic recovery and transition plan that focuses on bringing equitable economic, health, and environmental opportunities for disinvested communities. We are committed to working collaboratively with a wide range of regional stakeholders and agree to value the different mindsets and skillsets that they bring in co-creating a more inclusive, equitable, and competitive regional economy.
