

January 9, 2025

#### Notes

- 2 areas of feedback from the RC on the Catalyst Scoring Matrix
  - Improves Outcomes
    - “Does the project allow for scaling and identification of quality family-sustaining jobs?”
      - Idea is to ensure actual orgs that are submitting proposals have the capacity to scale and identify these jobs
      - Lori: Improves outcomes is not about the organization submitting, but rather about the project specifically
      - Alissa: To me the question is redundant because it talks about creating and identifying family-sustaining jobs which the bullet points already mention
  - Target Organizations
    - Lori: Asterisks added next to those who are deemed most important (this could be provided as an answer)
- Activation Plan
  - Lori request for copy of current activation plan to be sent out to GC in Eng/SP – the RC should meet an internal deadline for the GC to be able to review with time and provide feedback
- RFP Design and Development
  - KCCD grants team working on a revised version
    - Date for voting on final RFP: Zoom 11am-1pm on Friday, 2/7 with the RC

#### Action items

- Set up 2/7 GC meeting
