RE: WEB-BASED PARKING PERMIT MANAGEMENT SYSTEM RFP # DO140506

Addendum “3” is hereby expressly incorporated and made part of the Web-Based Parking Permit Management System RFP #DO140506 dated May 6, 2014.

ADDENDUM 3

This Addendum provides answers to bidder questions.

Q1. Section 4.1.8 – Optional permit activation by permit holder.

Does a purchaser need to activate a permit by returning to the website and taking some action? Are permits already “active” and usable when delivered to the purchaser?

*Answer:* We would like the option of having a purchaser take action to validate a permit but not have this be a mandatory feature. It might be an option that is activated for permits that are mailed to ensure that the purchaser received their permit. One college may choose to activate the feature while another does not activate it.

Q2. Section 4.1.9 – Ability to interface with listing of pre-qualified permit purchasers.

Can you elaborate further on the need? For example, is this a requirement to integrate with a KCCD system via an API to extract a list of pre-qualified purchasers? Or the ability to send emails to a list of potential purchasers? More information would help us better understand the requirement. More information would help us better understand the requirement.

*Answer:* We want to limit the online purchase of permits to identified registered students and employees. We also want to limit the type of permit that can be purchased based on status as a student or employee. There is not a specific requirement to integrate with the KCCD system.

All other specifications remain unchanged.
